

Advanced ROVUS @ Nanjing First Hospital

Introduction: The aim of this advanced training program will focus on the interpretation, conduction, and pitfalls/tips of technologies on (but not limited to) IVUS and rotational atherectomy.

Date: Mon 6th–Tue 7th, Aug, 2018

Venue: Nanjing first Hospital, Nanjing, China

Course director: **Dr. Shao-Liang Chen**

Participants: Interventional cardiologists with at least 3 years of experience in PCI are the basis of this course.

Language: English

AGENDA

Time	Contents	Trainer
Day 1 IVUS Day		
08:30	Depart from hotel	
09:00-09:30	Opening remark and group photo	Shao-Liang Chen
09:30-09:50	How to achieve optimal PCI? Why, when, and How to...	Shao-Liang Chen
09:50-10:00	Discussion	
10:00-10:20	Features of vulnerable plaques detected by IVUS	Bill Gogas
10:20-10:30	Discussion	
10:30-10:50	IVUS criteria to define optimal PCI: IVUS-use vs. IVUS-guidance	Shou-Jie Shan
10:50-11:00	Discussion	
11:00-11:20	Puzzle into a box: IVUS with FFR/ QFFR?	Fei Ye
11:20-11:30	Discussion	
11:30-11:50	Importance of IVUS in guiding bifurcation stenting	Jun-Jie Zhang
11:50-12:00	Discussion	
12:00-12:40	Lunch	
12:40-13:50	Live case (IVUS guidance LM bifurcation)	Shao-Liang Chen
13:50-15:30	Case sharing from attendees:	Song Lin(chair), Xiao-Bo Li (discussant)
	Imaging guided PCIs for aneurysm cases ——Dr.LatchumandhassKalidoss(India)	
	IVUS guided Bifurcation PCI (Cullote technique) ——Dr.SanjatChiwane (India)	
	A Case about IVUS to help PCI optimization ——Dr. Nurwahyudi(Indonesia)	
15:30-15:45	Tea break	
15:45-16:45	Live case (IVUS guidance complex PCI)	Fei-Ye
16:45-17:45	Case sharing from attendees:	Nai-Liang Tian (chair) Liang Chen (discussant)
	IVUS Guided PCI with Rotablation in symptomatic aortic stenosis patients ——Dr. AmitPendharkar (India)	
	Case with Left Main & IVUS ——Dr. AriefFadhilah(Indonesia)	
17:45	Departure from Hospital	
19:00	Welcome dinner	

Day 2 Rota Day		
08:30	Depart from hotel	
09:00-09:20	When to apply Rota according to IVUS or angiographic findings?	Jun-Jie Zhang
09:20-09:30	Discussion	
09:30-09:50	Prevention and management of Rotablator-related complications	Fei-Ye
09:50-10:00	Discussion	
10:00-10:20	Extreme cases of Rota failure: going for CABG?	Shao-Liang Chen
10:20-10:30	Discussion	
10:30-10:50	Indications for cutting balloon angioplasty: tech and tips	Nai-Liang Tian
10:50-11:00	Discussion	
11:00-12:00	Hands-on training on IVUS, cutting balloon, and Rota	Shou-Jie Shan, Zhi-MingWu, Staff from BS
12:00-12:40	Lunch	
12:40-13:50	Live case (calcified lesions)	Shao-Liang Chen
13:50-15:00	Case sharing from attendees:	Zhi-Zhong Liu (chair) Wei You (discussant)
	LM bifurcation lesion with heavy calcification and near total occlusion of LCX ostium. —— Dr. Yu-Wei Chen(Taiwan)	
	Heavily Calcified Left Main Bifurcation treated by Rotablation and 2 stents Strategy ——Dr. SodiqurRifqi (Indonesia)	
	When rotaburr can't cross LAD lesion.... ——Dr. Amir AzizAlkatiri (Indonesia)	
15:00-16:00	Live case (calcified lesions)	Jun-Jie Zhang
16:00-16:30	Key messages conclusion	Shao-Liang Chen
16:30	Adjourn	

Dean Chen lectures in the Advanced ROVUS @ Nanjing First Hospital

Asia-Pacific ROVUS Attendees @ Nanjing First Hospital
